Eric Young opened the public hearing. Chris Bronczyk reviewed his staff report dated July 23, 2019. Mr. Bronczyk noted, in Exhibit C, Engineering's conditions #7 could impact the proposed design. The condition was sent to the applicant's engineer and they didn't feel they couldn't meet the requirements. Mr. Bronczyk just wanted to keep everyone informed. Eric Wilkinson, Odyssey Engineering said they were a little surprised but they realigned the street, it worked out well and he understood the reasoning behind it.

With no response to the call for public comment, the public comment period was closed.

Mr. Young said he thought the change in the road was interesting and asked the Committee for their comments. Wayne Handrock said he spoke with Engineering and they didn't have any problem with it. Tim Simpson said the realignment will allow for the setbacks from the intersection of Pyramid and Rio Campo. It will also align the intersections of the south properties with the ones to the north which will help allow this to meet current code requirements. Chief Moore asked if it was a dirt road. Mr. Bronczyk said yes. Because this is a commercial area, one of the engineering requirements is to bring the road, on this property, up to standards. It is proposed to be constructed to a 56 foot wide commercial collector roadway with sidewalk on both sides. Beyond that it will likely be dirt road. Mr. Bronczyk asked Chief Moore if it impacted fire. Chief Moore said not really. Mr. Young suggested the applicant consider a pre-development meeting when deciding on the site development.

Tim Simpson moved that, after giving reasoned consideration to the information contained within the staff report and the information received during the public meeting, that the Washoe County Parcel Map Review Committee approve Parcel Map Case Number WTPM19-0010 for Mission Hills Self Storage, subject to the conditions of approval included as Exhibit A with the staff report, and make the determination that the following criteria is or will be adequately provided for pursuant to Washoe County Code, Section 110.606.30. Larry Chesney seconded the motion which carried unanimously.

The motion carried and considered the following criteria:

- 1) General improvement considerations for all parcel maps including, but not limited to:
 - a) Environmental and health laws and regulations concerning water and air pollution, the disposal of solid waste, facilities to supply water, community or public sewage disposal and, where applicable, individual systems for sewage disposal;
 - b) The availability of water which meets applicable health standards and is sufficient for the reasonably foreseeable needs of the subdivision;
 - c) The availability and accessibility of utilities;
 - d) The availability and accessibility of public services such as schools, police and fire protection, transportation, recreation and parks;
 - e) Conformity with the zoning ordinances and master plan;
 - f) General conformity with the governing body's master plan of streets and highways;
 - g) The effect of the proposed subdivision on existing public streets and the need for new streets or highways to serve the subdivision;
 - h) Physical characteristics of the land such as floodplain, slope and soil;
 - i) The recommendations and comments of those entities reviewing the tentative parcel map pursuant to NRS 278.330 and 278.348, inclusive;
 - j) The availability and accessibility of fire protection including, but not limited to, the availability and accessibility of water and services for the prevention and containment of fires including fires in wild lands;
 - k) Community antenna television (CATV) conduit and pull wire; and
 - l) Recreation and trail easements.
