 7. Review, discussion, and possible actions regarding the optional provision of the SECURE Act 2.0 to include whether the County 457(b) Plan will allow, beginning January 1, 2025, participants to utilize a new catch-up provision for those employees who reach ages 60, 61, 62, or 63 during the year. These participants may increase the catch-up contribution limit to the greater of 1) \$10,000 or 2) 150% of the regular age 50 catch-up contribution limit. For all other catch-up contribution eligible participants, including those who will not reach at least age 60 during a given year, or who will attain age 64 or older in such a year, the ordinary catch-up contribution limit will remain in place.
Member, Hill noted the complexity of this change and the lack of resources within Technology Services. Since this is not a requirement within Secure Act 2.0, Committee members agreed to table this provision for 12 months and add to the agenda for August 2025.
 8. Review, discussion, and possible actions regarding the Deferred Compensation 457(b) Plan Document Appendix A (Definitions) of "Normal Retirement Age" to include how it affects the Special Pre-Retirement Catch-up Provision, Section 3.2 (c), and the determination of eligibility for this Catch-up; and the language within this definition which states that a participant may elect an alternate "Normal Retirement Age" by written instrument delivered to the Committee and, if the

language is retained, establish this Committee's role in regard to that instrument and a process for delivery. Discussion will include Plan language and definition changes and recommendations to the Board of County Commissioners for Plan Document amendment(s).
