1. Certain compliance rules such as ratings minimums and prohibited securities constraints show policy limits as zero, indicating that zero securities are permitted to violate the constraint. For these rules, an actual value of zero indicates that the portfolio is in compliance, and that zero securities are violating the constraint.
2. The compliance report allows for resolutions to be documented if an actual value exceeds a limit. The specific resolution can be found on the client portal site.

1. Certain compliance rules such as ratings minimums and prohibited securities constraints show policy limits as zero, indicating that zero securities are permitted to violate the constraint. For these rules, an actual value of zero indicates that the portfolio is in compliance, and that zero securities are violating the constraint.
2. The compliance report allows for resolutions to be documented if an actual value exceeds a limit. The specific resolution can be found on the client portal site.
